

Student Handout: Unit 3 Lesson 2

The United Nations

Suggested time: 1 Hour

What's important in this lesson:

With the end of the Second World War, a new international organization was needed to respond to international conflicts. With the failure of the League of Nations countries like Canada were determined to prevent the horrors of the Second World War from happening again. Along with the new international organization known as the United Nations, Canada also embarked on its new international role as peacekeeper.

Complete these steps:

1. Using the textbook, scrapbook, and/or the internet, create a mind map on the topic of the United Nations. Some topics for your mind map include:
 - Who created it
 - Why it was created
 - When it was created
 - Where is it located
 - How it is run
 - Which prominent Canadians are involved
 - What Canada's current role is.

Hand-in the following to your teacher:

- United Nations mind map

Questions for the teacher:
